DETAILED ACTION

1. Applicant's response filed on 09/30/2005 has been fully considered. Claims 1-35 are pending. (NOTE: Claims 15-35 are withdrawn from consideration as non-elected invention).

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Otaki et al. (US 6,849,149 B2) in view of Schaefer et al. (US 2004/0003638 A1).

Otaki discloses a laminate comprising a transparent protective layer, a hologram, transparent adhesive, recorded information, and a transparent film, in the order thereof (Fig. 10 and col. 26, line 47 thru col. 37, line 63). The transparent protective layer 206 is equivalent to the claimed protective layer, hologram 201 is equivalent to the claimed metallic layer, the transparent adhesive 205b is equivalent to the claimed adhesive layer, the transparent film 203 and the information 202 are equivalent to the claimed printable layer. The hologram further comprises colorant (col. 34, line 4), has a thickness of 0.1-50 um (col. 32, line 36). The transparent film is can be made of polyethylene terephthalate or polyethylene (col. 34, line 30 and col. 32, line 46). The transparent protective film is made of acrylic (col. 32, line 46), and has a thickness of 10-100 um (col. 32, line 43).

Response to Arguments

4. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.
